

# GLOBE-TRAVELLER

# GLOBE-TRAVELLER 10 years

The **Globe-Traveller** brand was born on 14.02.2012 out of the desire to share freedom, independence, and comfort with others.

**High quality** lies at the roots of Globe-Traveller camper vans. Every idea, every prototype, and every vehicle we design and produce must meet the highest possible standards. Our customers set these standards. **Everything** from the initial sketch to the final assembly is done with passion and extreme attention to detail, followed by rigorous quality control. These are the core principles that make the Globe-Traveller brand unique.

**Today**, our camper vans can be seen on the roads all over Europe. Our products evolve, but our vision and mission are not revision subjects. Invariably, our goal is to be a respected manufacturer of motorhomes, consistently delivering above expectations. The **awards** we receive confirm that our efforts are being recognized not only by our clients but also among the industry experts.

**German Brand Award 2022**

– Excellence in Brand Strategy and Creation –  
Brand Design / Product Design

## Explorer 2XS

**NEW model**

## Explorer 2X

Fiat Ducato | Peugeot Boxer

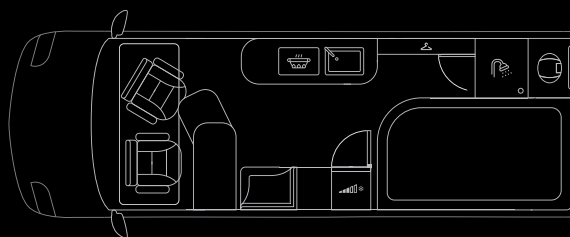

NEW model

The ultimate combination of functionality, quality, and design.

Just for two. Unique, novel, and innovative.

The bathroom and the bed are placed in the rear part of the vehicle. We replaced the passenger seat with a seat for one. We intended to provide as much inside space as possible.

# Voyager

A unique interior and compelling exterior

Globe-Traveller Voyagers provide four seats with 3-point seat belts. Large and comfortable beds in the rear are suitable for two adults. The fold-down upper bed has been designed with two kids or teenagers in mind.

With additional roof modification, the Voyager models are 3 meters tall. Standard doors of the panel van have been replaced with a lightweight composite wall, giving additional usable space inside.

# Pathfinder

A practical motorhome  
for families

Globe-Traveller Pathfinder Series is similar to the Voyager Series. These camper vans also have 4 seats and 4 berths, as well as a modified roof. The standard rear panel van door has been left unchanged, providing easy access to the garage. Both wings can be opened by 90 or 180 degrees for easier storage, loading and unloading.

The Pathfinder Z is also available as a 'bike' version so you can take two bicycles inside the garage.

# Explorer

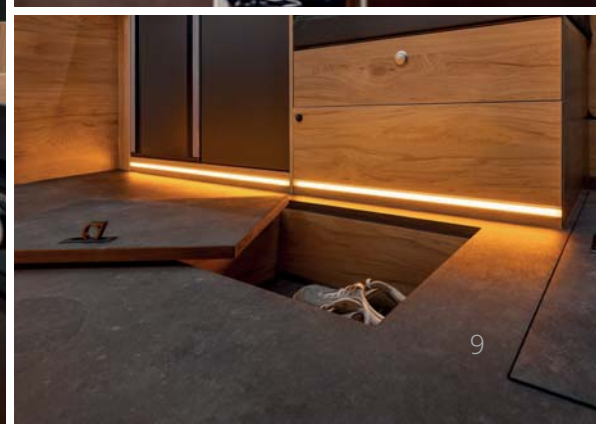

Comfortable camper van  
for maximum 2 travellers

Globe-Traveller Explorer Series has been designed for maximum two travellers. Like all Voyager and Pathfinder models, equipped with a double floor, these vans are also ready to be used all year round. Vast overhead lockers, a wardrobe with hanging space, deep drawers, and many other compartments, combined with a large garage provide a lot of storage space.

'Bike' version is available as an Explorer Z option.

## What make our camper vans special

### MODIFIED ROOFS AND PULL-DOWN FOLDING BED

As a result of additional roof modification, a pull-down folding bed has been fitted inside. All Voyager and Pathfinder models with this roof adaptation are 3 meters high. In addition, the clearance distance between the floor and the ceiling is 210 cm in the dinette and 195 cm in the rear part of the habitation area.

### MODIFIED GARAGE DOORS

Standard doors of the panel van have been replaced with lightweight composite walls. You will find this modification in the Voyager series.

### INTERNAL SLIDING DOORS

The Voyager X and XS models, and the Pathfinder X model, are equipped with an internal sliding door. During the day, when open, they remain almost invisible. At night, they close the bedroom, separating it from the front of the habitation area.

### A 'BIKE' VERSION

A solution appreciated by cycling enthusiasts. A 'bike version' as an option, available in Pathfinder and Explorer Z models, allows carrying two bicycles inside the garage.

### DOUBLE FLOOR

Super high roof panel vans are a base for Voyager, Pathfinder, and Explorer series to get truly winterised conversions. A double floor under the entire habitation area with proper insulation let these RVs to be used all year round.

### WHAT'S NEW

- › Electric system with battery computer
- › Passenger seat with the drawer under it (Explorer 2X and Explorer 2XS)
- › The fold-out table that can be hidden under the floor
- › The bed with a lift-up, adjustable backrest
- › Two wireless chargers (Explorer 2X and Explorer 2XS)
- › Shoe locker under the floor (Explorer 2X and Explorer 2XS)
- › Dry toilet, option in all X, XS models and Voyager Z
